## Wood's Milan 7K Duo

Brand	Wood's
Model	AC Milan 7K Duo
PNC	WAC705G
Indoor sound power level	62
Refrigerant	R290
Global Warming Potential (GWP)	3
<p>Leakage of refrigerant contributes to climate change. Refrigerant with a lower global warming potential (GWP) would, in case of leakage, give rise to less global warming than a refrigerant with a higher GWP. This appliance contains a refrigerant with a GWP equivalent to 3. This means that if 1 kg of the refrigerant were to leak into the atmosphere, the impact on global warming would be 3 times higher than 1 kg of CO<sub>2</sub> over a hundred-year period. Never attempt to disassemble the product yourself or tinker with the refrigerant circuit. Always consult a specialist.</p>	
Cooling mode	
Cooling factor (EER <sub>rated</sub> )	2,6
Energy consumption, kWh/ 60 minutes	0,8
Cooling capacity, Prated, kW	2,0
Heat mode	
Coefficient of heat (COP <sub>rated</sub> )	2,5
Energy consumption, kWh/ 60 minutes	0,6
Heating capacity (Prated, kW)	2,0
<p>Energy consumption 1.0 in kWh per hour, based on results from standardized tests. The actual energy consumption depends on how the appliance is used and where it is placed.</p>
